

University Technology Office

The University Technology Office embraces its role as both an enabler and catalyst for advancing the vision and work of the New American University. We are a values-driven organization. Our commitments are reflected in all the work we do in pursuit of operational excellence, the experience and delight of our community, and our strategic and innovative initiatives.

Core Values

Aspirations

- We strive to be inclusive, authentic, and passionate in our work and culture.
- We promote an open and transparent climate within the UTO.
- We lead by example being visionary, innovative, and aligned to the future of the New American University.
